

# You could retire with More Money!

*Thanks to the retirement plan our company offers!*

Increase the amount you're putting into your retirement plan by one percent or more and you could **boost your retirement savings by thousands of dollars**. And because of the tax advantages of our plan, you'll hardly notice the difference in your paycheck!

See for yourself with this example. Assume \$25,000 in annual income, 30 years to retirement, an annual 8%\* rate of return, and a starting deferral of 4%.

Additional Contribution	Reduced take home Pay per week	EXTRA at retirement!
1%	\$4.81	\$28,321
2%	\$9.62	\$56,642
3%	\$14.43	\$84,962
5%	\$24.04	\$141,604

\*The assumed rate of return is hypothetical and does not represent the return of any particular investment.

Chart assumptions do not take into consideration salary increases or cost of living adjustments.

**To boost your retirement savings, start today by taking the following steps:**
